

Terrigenous mass movements : detection, modelling, early warning and mitigation using geoinformation technology

Pradhan, Biswajeet, editor

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20405655&lokasi=lokal>

Abstrak

The book is a product of a cooperation between the editors and several contributing authors, addressing current issues and recent developments in GI technology and mass movements research. Its fundamental treatment of this technology includes data modeling, topography, geology, geomorphology, remote sensing, artificial neural networks, binomial regression, fuzzy logic, spatial statistics and analysis, and scientific visualization. Both theoretical and practical issues are addressed.
