

Analytical imaging techniques for soft matter characterization

Mittal, Vikas, author

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20405792&lokasi=lokal>

Abstrak

The book aims to describe the microscopic characterization of the soft matter in the light of new advances acquired in the science of microscopy techniques like AFM, SEM, TEM etc. It does not focus on the traditional information on the microscopy methods as well as systems already present in different books, but intends to answer more fundamental questions associated with commercially important systems by using new advances in microscopy. The contents of the book also reflect this as the chapters are not based on describing only material systems, but are based on the answering the problems or questions arising in their characterization.
