

Desalination concentrate management

Ladewig, Bradley, author

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20405840&lokasi=lokal>

Abstrak

This book examines five methods used for concentrate management, namely, disposal to surface water, disposal to sewerage, deep well injection, land applications and evaporation ponds. In particular, the book focuses on the design, siting, cost, and environmental impacts of these methods. While these methods are widely practiced in a variety of settings already, there are many limitations that restrict the use of certain disposal options in particular locations.
