

Mass spectrometry of polymers—new techniques

Hakkarainen, Minna, editor

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20405917&lokasi=lokal>

Abstrak

This book about emerging mass spectrometric tools for analysis of polymers and polymer additives, analysis of polymer additives and impurities by liquid chromatography/mass spectrometry and capillary electrophoresis/mass spectrometry, direct insertion probe mass spectrometry of polymers, mass spectrometric characterization of oligo- and polysaccharides and their derivatives, and lectrospray ionization-mass spectrometry for molecular level understanding of polymer degradation.
