

## Strategi Kesantunan Bahasa pada Anak-anak Usia Prasekolah: Mengungkapkan Keinginan

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20406289&lokasi=lokal>

---

### Abstrak

Indonesian children learn the rules governing attitudes and utterances--the politeness strategies--in their community through the process language acquisition. They use mainly the positive politeness. It is found that Indonesian preschoolers use different politeness strategies towards different participants at school, based on age, social distance, and authority scales for expressing their requests.
