Abstrak

This book constitutes the refereed proceedings of the 6th International Conference on Information Processing, ICIP 2012, held in Bangalore, India, in August 2012. The 75 revised full papers presented were carefully reviewed and selected from 380 submissions. The papers are organized in topical sections on wireless networks, image processing, pattern recognition and classification, computer architecture and distributed computing, software engineering, information technology and optimization techniques, data mining techniques, and computer networks and network security.
