

Penentuan arah kiblat

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20407086&lokasi=lokal>

Abstrak

Determining the direction of Qibla for Muslims is an important issue. Facing the Qibla is a legal requirement in the performance of praying. Without facing the Qibla, one's prayer is void or invalid. Method in determining the direction of Qibla has developed from the traditional way of determining to the modern one. It follows the development of science and technology of its time.
