

Foundations of algebraic specification and formal software development

Sannella, Donald, author

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20407790&lokasi=lokal>

Abstrak

This book provides foundations for software specification and formal software development from the perspective of work on algebraic specification, concentrating on developing basic concepts and studying their fundamental properties.

This book contains five kinds of material: the requisite mathematical foundations; traditional algebraic specifications; elements of the theory of institutions; formal specification and development; and proof methods.
