

Anonymizationic

Weber, Rolf H., author

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20407911&lokasi=lokal>

Abstrak

Anonymization explores the legal framework developed to help protect netizens' privacy and their wish for anonymous communication over the Internet. It debates the value in helping to protect anonymity over a network which sees an increasing number of cybercrimes, and explores governmental interventions into anonymity requests, and whether requests should only be legal if a sufficiently legitimized public interest is given.
