

Transformasi sistem pengupahan berbasis syariah sebagai alternatif menciptakan iklim investasi yang kondusif di Indonesia

Dian Ferricha

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20408622&lokasi=lokal>

Abstrak

Nowadays diregulation of investment is esier than in the past. But the economy grows constanly. It indicated that the policy of government is not significant yet to invite investors in Indonesia. It is caused by the labour wage system is not properly. The labour wage system should be based on syari'ah. Thus, we can share between labour, investors, and state in building new mutualism relationship and actualizing the welfare state.
