

Perancangan pembangunan Indonesia masa desentralisasi

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20409537&lokasi=lokal>

Abstrak

The planning in Indonesia have a model changed, from top down model to bottom up model. It's caused by economic crisis and recently situation. The asset in every region so important to be noticed with the program in order to success. Planning model in desentralization era make resource compatible with citizen participation who have similarity with DLA model to decide region developmnet executor. Participation of citizen position as user development in region for welfare and sustainable development.
