

A goal-oriented approach to forest landscape restoration

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20410705&lokasi=lokal>

Abstrak

This book draws together a team of experts from the natural and social sciences to discuss its success so far in addressing critical issues such as biodiversity, ecological function, and human livelihoods. Applying principles of landscape ecology, restoration ecology, planning theory and conflict management, the book presents a series of case studies which document the approach, and discusses how the approach can help with priority setting for the future.
