Abstrak

[Skripsi ini bermula dari perubahan tata ruang wilayah DKI Jakarta yang menyebabkan terjadinya masalah banjir. Peningkatan masalah banjir menarik perhatian pemerintah daerah untuk melakukan penanganan masalah banjir tersebut Karena tidak dapat diselesaikan secara parsial maka memunculkan perlunya kerjasama regional pada Jabodetabekjur. Kerjasama regional dilaksanakan melalui lembaga integrasi BKSP Untuk itu penelitian bertujuan untuk menjelaskan analisis kerjasama regional pada Jabodetabekjur melalui BKSP dalam penanganan banjir di DKI Jakarta. Berdasarkan analisis dengan metode kualitatif didapatkan kesimpulan bahwa kerjasama regional pada Jabodetabekjur sudah terjalin meskipun masih terdapat hambatan Sementara koordinasi oleh BKSP dianggap belum efektif dikarenakan keterbatasan kewenangan yang dimiliki.This thesis began from the spatial area changed in DKI Jakarta that cause flood The increase flood attracted the. Local Government to handle that flood Because it could not be solved partially so it needed regional cooperation among Jabodetabekjur. Regional cooperation was implemented through integration institution named Badan Kerjasama Pembangunan BKSP. The research aimed to explain regional cooperation analysis among Jabodetabekjur through BKSP in handling flood in DKI Jakarta. Based on qualitative method analysis it could be concluded that regional cooperation among Jabodetabekjur had been run out although there were still obstacle .Meanwhile the coordination by BKSP deemed ineffective due to limit authority possessed ;This thesis began from the spatial area changed in DKI Jakarta that cause flood.
