Abstrak

[Banyak masalah kesehatan ekonomi sosial akibat perilaku merokok yang akan berpengaruh terhadap keberhasilan pembangunan nasional. Namun perokok remaja setiap tahunnya meningkat. Padahal pemerintah sudah berupaya memperingatkan bahaya merokok. Sekarang pemerintah menempuh cara baru melalui pesan gambar di bungkus rokok. Penelitian ini untuk mengetahui hubungan pesan gambar dengan perilaku merokok. Ini merupakan penelitian diskriptif korelatif dengan pendekatan cross sectional metode pengambilan data stratified random sampling dan menggunakan kuesioner Responden sebanyak 100 siswa. Hasil penelitian menunjukkan bahwa pesan gambar komunikatif berimbang dengan yang tidak 90 siswa berstatus bukan perokok ada hubungan bermakna antara pesan gambar dengan perilaku merokok siswa. Penelitian ini merekomendasikan agar perancang pesan gambar dibungkus rokok membuat gambar lebih menakutkan dan mengganti pesan gambar yang kurang menakutkan.

.....So many health problems economic social consequence of smoking behavior that affect national development. But smokers especially young population being increase. The Government used warning labels on tobacco product.
