Abstrak

[Skripsi ini membahas bentuk pemberdayaan pegawai negeri sipil yang dilakukan di Unit Pelayanan Terpadu Kesehatan Masyarakat Ubud II, Kabupaten Gianyar, Provinsi Bali dalam pelaksanaan inovasi one stop service bagi kelompok stigma. Penelitian ini menggunakan paradigma post positivis melalui teknik pengumpulan data kualitatif yaitu wawancara mendalam. Hasil penelitian menunjukkan pemberdayaan pegawai negeri sipil yang dilakukan di UPT Kesmas Ubud II dalam pelaksanaan Inovasi One Stop Service Bagi Kelompok Stigma belum memenuhi semua dimensi yang dikemukakan oleh Aileen Mitchell Stewart. Dimensi yang telah dilakukan dalam pelaksanaan inovasi adalah dimensi memperlancar (facilitating), berkonsultasi (consulting), berkerja sama (collaborating), dan mendukung (supporting). Dimensi yang belum terpenuhi adalah dimensi membuat mampu (enabling) dan dimensi membimbing (mentoring).

;This thesis discusses the form of empowerment of civil servants at the Public Health Integrated Service Unit Ubud II, Gianyar Regency, Bali Province in the implementation of innovation of one stop service for stigma group. The research uses a post-positivist paradigm through qualitative data collection technique, which is in-depth interview. The results showed that the empowerment of civil servants conducted has not fulfilled all of the dimensions proposed by Aileen Mitchell Stewart. Dimensions have been made in the implementation of innovation is the dimension facilitating, consulting, collaborating, and supporting. Dimension unfulfilled in the implementation of innovation is enabling and mentoring.
