Abstrak

[**ABSTRAK**]

Penampilan dan pakaian seragam merupakan salah satu bagian dari identitas profesional bagi perawat. Berkembangnya penampilan dan desain pakaian seragam mempengaruhi pandangan terhadap profesi. Penelitian ini bertujuan mengidentifikasi persepsi perawat terhadap penampilan dan pakaian seragam. Desain penelitian menggunakan fenomenologi deskriptif, proses pengumpulan data dilakukan dengan Focus Group Discussion (FGD). Partisipan pada penelitian ini diambil secara purposive sampling, analisis data menggunakan metode Giorgi. Hasil penelitian teridentifikasi tema: tujuan dan manfaat penampilan dan pakaian seragam, makna penampilan dan pakaian seragam, perasaan terhadap penampilan dan pakaian seragam, dan pengelolaan penampilan dan pakaian seragam. Disimpulkan bahwa persepsi perawat terhadap penampilan dan pakaian seragam memandang penampilan dan perasaan terhadap penampilan dan pakaian seragam merupakan hal yang penting. Peran manajer dalam pengontrolan penampilan dan penggunaan pakaian seragam secara berkala sangat diperlukan dalam pengelolaan penampilan dan pakaian seragam.
