[ABSTRAK

Penelitian membahas implementasi kebijakan rehabilitasi sosial penyandang disabilitas mental melalui UILS di Tebet, Jakarta. Metode penelitian ini adalah kualitatif, dengan fokus penelitian pada proses pelaksanaan rehabilitasi sosial bagi penyandang disabilitas mental, peran stakeholder dalam pelaksanaan UILS, serta mengetahui tantangan dalam pelaksanaannya. Informan kunci sebanyak 14 orang yang merupakan berbagai perwakilan dari pemerintah, penyelenggara pelayanan, dan PDM penerima manfaat, dengan berbagai variasi latar belakang gangguan. Hasil penelitian menunjukkan bahwa rehabilitasi melalui UILS dapat berjalan dengan baik dan memberikan manfaat terhadap penyandang disabilitas mental dan keluarga, namun kualitasnya perlu dikembangkan. Kekuatan terletak pada kerjasama dan koordinasi antar stakeholder. Tantangan dalam pengembangannya menyangkut sumber daya SDM pelaksana, informasi, dan jaringan.

ABSTRACT

This research discusses the implementation of social rehabilitation for People with Mental Disability (PwMD), through the UILS Tebet, Jakarta. The method used was qualitative analysis, which focuses on the implementation process of social rehabilitation for PwMD. The study describes roles of various stakeholders involved in the services, and the constraints faced in implementing rehabilitative process. The key informants in this research are 14 persons, who have been involved in the UILS. They are representing various stakeholders such as government representatives, UILS staff members, and the beneficiaries. The research shows that social rehabilitation through the UILS is workable and give benefit for PwMD and theirs family, yet it could be further improved. The strength of services laid on coordination and cooperation among various stakeholders. Meanwhile, the constraints related to various factors, including: human resources, information, and networking., This research discusses the implementation of social rehabilitation for People with Mental Disability (PwMD), through the UILS Tebet, Jakarta.
