Abstrak

Pengaruh belanja pemerintah pusat menurut fungsi terhadap pertumbuhan ekonomi di Indonesia diteliti dengan menggunakan Ordinary Least Squares (OLS) rentang periode kuartal dari tahun 2005 sampai dengan tahun 2013. Dalam menjelaskan pertumbuhan ekonomi, digunakan variabel bebas berupa belanja pemerintah pusat menurut fungsi ekonomi, fungsi pelayanan umum, dan fungsi pariwisata. Berdasarkan hasil pengolahan data, ditemukan bahwa belanja pemerintah pusat fungsi ekonomi, fungsi pelayanan umum, dan fungsi pariwisata memiliki pengaruh yang signifikan dan positif terhadap pertumbuhan ekonomi di Indonesia.

The impact of central government expenditure by function to economic growth in Indonesia examined using Ordinary Least Squares (OLS) quarter period from 2005 to 2013. To explain the economic growth, the independent variable is used in the form of central government expenditure by economic function, the function of public services, and tourism functions. Based on the results of data processing, it was found that the economic function, public services function, and tourism functions has a significant and positive effect on economic growth in Indonesia.
