Abstrak

[ABSTRAK

Tulisan ini mencoba untuk mengetahui dan menjelaskan bahwa pentingnya untuk menerapkan suatu bentuk pencegahan penyalahgunaan BBM subsidi dengan jenis biosolar di Kota Batam sebagai tindak lanjut dari pengawasan yang telah dilakukan oleh instansi terkait dan upaya pencegahan kejahatan mobil pelangsir.

Tulisan ini menggunakan metode pengumpulan data sekunder berupa data perusahaan, data statistik kepolisian, dan penelitian terdahulu sebagai dasar analisis. Hasil tulisan ini ditemukan bahwa terdapat keberhasilan dan ketidakberhasilan program kartu survey ini dalam mencapai tujuannya. Salah satu keberhasilan program kartu survey adalah program ini berhasil menekan realisasi konsumsi BBM subsidi dengan jenis biosolar, namun dilain hal program kartu survey tersebut masih belum efektif dalam melakukan pencegahan kejahatan pengangkutan illegal BBM subsidi bisolar dalam bentuk kejahatan mobil pelangsir. Hal tersebut dikarenakan, masih adanya kelemahan didalam penerapan program kartu survey seperti halnya, kartu ganda, pelaku dapat bekerjasama dengan operator SPBU dan lain sebagainya.

ABSTRACT

This paper tries to explain the importance of criminal prevention measures to prevent biodiesel gasoline embezzlement in Batam, as a follow-up of supervision that had been done by the relevant agencies. Data's has been collected from the company, police statistics, and previous research, and used as a basis to analyze the situation. This paper concluded that the kartu survey program, a crime prevention strategy developed by the company, has its own strength and weakness. One of the achievement done by the program is pressing the consumption of subsidized gasoline. But, at the same time this program also fails to effectively prevents the embezzlement of subsidized gasoline in the form of mobil pelangsir. It happens because there's still flaws on the application of the kartu survey program, such as double card, the cooperation between offender and the operator of SPBU and etc. , This paper tries to explain the importance of criminal prevention measures to prevent biodiesel gasoline embezzlement in Batam, as a follow-up of supervision that had been done by the relevant agencies.
