Abstrak

[**ABSTRAK**] Penggunaan gaya bahasa sering kali ditemukan dalam kehidupan sehari-hari, yang terkadang

pula dapat menggeser makna. Pada umumnya, anak-anak belum dapat memahami maksud tersembunyi di balik ungkapan yang implisit. Penelitian ini bertujuan untuk mengidentifikasi kemunculan eufemisme, serta mengklasifikasi bentuk eufemisme yang muncul pada buku anak. Penelitian ini merupakan analisis deskriptif yang mendeskripsikan atau memberikan penjelasan terhadap data penelitian. Dari penelitian ini dapat disimpulkan bahwa gaya bahasa eufemisme sudah ditemukan pada buku anak, baik secara eksplisit maupun implisit. Namun tak berarti pula semakin tua usia anak semakin banyak penghalusan makna yang dimunculkan pada buku anak.<hr>

ABSTRACT The usage of language style is often found in everyday life. Language style can shift the

meaning of a sentence. In general, children cannot understand the ulterior motives behind the implicit expression. This study aims to identify the emergence of euphemism in children's books and also to classify the form of euphemisms which appear in the data. This descriptive analytical study aimed to describe and provide an explanation from the research data. From the data in this study it can be concluded that stylistic euphemisms, either explicitly or implicitly stated, have been found in children's books. Children's books aimed to older children did not appear to have more euphemisms according to the data; The usage of language style is often found in everyday life. Language style can shift the
