Abstrak

[ABSTRAK
 Penelitian ini berjudul "Kepercayaan Interpersonal Terhadap Konsumen Dalam Pembelian Melalui Belanja Online di Indonesia" yang membahas tentang bagaimana responden bertindak dan membangun kepercayaan atas pembelian dalam lingkungan online. Karena teknologi sekarang meningkat dan memberikan cara yang paling mudah bagi pengguna dalam melakukan belanja online, tujuan dari penelitian ini adalah untuk menentukan faktor-faktor yang mempengaruhi konsumen untuk berbelanja secara online, saat berbelanja di internet memiliki banyak ketidakpastian karena pembeli dan penjual tidak memiliki interaksi fisik atau keterlibatan. Terdapat risiko yang mungkin, yang dapat mempengaruhi kepercayaan dalam platform belanja online.

ABSTRACT
