

Inflammatory breast cancer: an update

Naoto T. Ueno, editor

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20417497&lokasi=lokal>

Abstrak

This book is the one of the few textbooks that summarizes the latest information dated to inflammatory breast cancer. The uniqueness of this book is that it has summarized the latest molecular and mechanistic findings, which may lead to novel diagnostic tool or therapeutic approach to fight this deadly disease.
