

Management of chronic conditions in the foot and lower leg

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20417737&lokasi=lokal>

Abstrak

Written by a stellar line up of experts in their field. The book takes the reader on a very informative and detailed journey through many foot entities and everything from aetiology, risk factors, imaging, physiotherapy and pharmacology is covered for each." "Reviewed by Tobias Bremer on behalf of In Touch, July 2015. This book is able to give a very detailed 'gold standard' education for the covered conditions.
