

Endocytosis in plants

Jozef Samaj, editor

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20417774&lokasi=lokal>

Abstrak

This book presents an overview of our current knowledge of endocytosis in plants with a main focus on the key molecules undergoing and regulating endocytosis. It also provides up to date methodological approaches as well as principles of protein, structural lipid, sugar and microbe internalization in plant cells. The individual chapters describe clathrin-mediated and fluid-phase endocytosis, as well as flotillin-mediated endocytosis and internalization of microbes.
