

The economics of money, banking, and financial markets

Mishkin, Frederick S., author

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20418473&lokasi=lokal>

Abstrak

The Economics of Money, Banking, and Financial Markets set the standard for money and banking courses when it published in its first edition, and it continues to be the worldwide market leader. By applying a unified analytical framework to the models, Mishkin makes theory intuitive for students, and the rich array of current, real-world events keeps students motivated. This Global Edition has been edited to include enhancements making it more relevant to students outside the United States.
