

Energy and the wealth of nations: understanding the biophysical economyx

Hall, Charles A.S., author

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20418626&lokasi=lokal>

Abstrak

Hall and Klitgaard explore the relation between energy and the wealth explosion of the 20th century, the failure of markets to recognize or efficiently allocate diminishing resources, the economic consequences of peak oil, the EROI for finding and exploiting new oil fields, and whether alternative energy technologies such as wind and solar power meet the minimum EROI requirements needed to run our society as we know it.
