

Intermediate epidemiology methods that matter

Magnus, Manya, author

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20418744&lokasi=lokal>

Abstrak

Intermediate Epidemiology: Methods that Matter provides master's-level public health students with a solid foundation in the epidemiologic methods necessary for successful public health programs. This book stands apart from other intermediate texts in that it focuses on conceptual learning of basic methods without relying on extensive jargon. Intermediate Epidemiology uniquely uses a self-learning approach, with exercises provided at the end of each chapter to reinforce concepts and applications. The book creates a bridge from student to professional with lively descriptions of career paths for the MPH-level epidemiologist. Complete chapters on programs evaluation and implementation and analysis of studies are also provided"--Back cover.
