Abstrak

This book canvasses a range of law and policy issues concerning human rights and the environment. Each chapter examines an aspect of the links between environmental law and human rights in substantive and/or procedural terms, loosely falling into four themes: human rights and the environment in the context of the private sector; analysis of decisions of the European and Inter-American courts in respect of substantive and procedural aspects; human rights and the environment in the Asian region, including the issue of human displacement; and the future direction of human rights and environment law.
