

Numerical methods with worked examples

Woodford, C., author

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20419815&lokasi=lokal>

Abstrak

This book is for students following an introductory course in numerical methods, numerical techniques or numerical analysis. It introduces MATLAB as a computing environment for experimenting with numerical methods. It approaches the subject from a pragmatic viewpoint, theory is kept at a minimum commensurate with comprehensive coverage of the subject and it contains abundant worked examples which provide easy understanding through a clear and concise theoretical treatment. This edition places even greater emphasis on 'learning by doing' than the previous edition.
