

Niebel's methods, standards, and work design

Freivalds, Andris, author

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20420077&lokasi=lokal>

Abstrak

Addresses the increasing global competition and the fact that every industry, business, and service organization is restructuring itself to operate effectively. This title emphasizes both the manual components and the cognitive aspects of work, recognizing the gradual decline of the manufacturing sector and the growth of the service sector.
