

Boat building techniques illustrated / by Richard Birmingham

Birmingham, Richard

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20420111&lokasi=lokal>

Abstrak

Summary:

Covers a range of techniques and skills needed when constructing a boat, from interpreting the plans to hints on working different timbers. The author answers many of those puzzling questions, which need to be solved in a clear manner. This book is a useful reference to the home builder or a newly trained apprentice in a fitting out yard.
