

Analysis of genetic association studies

Zheng, Gang, author

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20420150&lokasi=lokal>

Abstrak

Analysis of Genetic Association Studies, textbook in statistical genetics and genetic epidemiology, and a reference book for the analysis of genetic association studies. The book is applicable to the study of statistics, biostatistics, genetics and genetic epidemiology. In addition to providing derivations, the book uses real examples and simulations to illustrate step-by-step applications. Introductory chapters on probability and genetic epidemiology terminology provide the reader with necessary background knowledge.
