

Role of lactobacillus helveticus on flavor formation cheese : amino acid metabolism

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20420381&lokasi=lokal>

Abstrak

Lactic acid bacteria, mainly lactobacilli, play an important role in cheese making. Their role can be divided into starters and non-starters or secondary microorganisms. *Lactobacillus helveticus*, an obligately homofermenter ...
