

Frontiers in statistical quality control 10

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20420442&lokasi=lokal>

Abstrak

The twenty-seven papers in this volume. The book is divided into two parts. Part I "On-line control" covers fields like control charting, monitoring and surveillance as well as acceptance sampling. Part II "Off-line control" is devoted to experimental design, process capability analysis and data quality. The purpose of the book is on the one hand to provide insights into important new developments in the area of statistical quality control, especially surveillance and monitoring, and on the other hand to critically discuss methods used in on-line and off-line statistical quality control.
