Abstrak

This is the first book manages to provide comprehensive and updated scientific evidence of the effectiveness of acupuncture and moxibustion intervention for cancer care. Laboratory and animal studies have uncovered the mechanisms of acupuncture and moxibustion for cancer therapy. Promising results of most clinical trials show the efficacy and safety of acupuncture and moxibustion in cancer management. This book consists of fifteen chapters which address a range of important aspects that will impact on the application of acupuncture and moxibustion. An overview of the safety and side effects of acupuncture and moxibustion for cancer care are also covered. In addition, the integration of acupuncture with Western medicine in cancer treatment and recent clinical trials are included as well.
