

Translational vascular medicine : pathogenesis, diagnosis, and treatment

Abraham, David, editor

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20420788&lokasi=lokal>

Abstrak

This book is a primer for translational vascular medicine and discusses the evolving and exciting areas of basic science applied to vascular medicine. The book is based on the third vascular biology conference held at The Royal College of Physicians in 2008. It provides a large amount of new basic and clinical information and the contributors are world leaders.
