

Antiphospholipid syndrome : insights and highlights from the 13th International Congress on Antiphospholipid Antibodies

Erkan, Doruk, editor

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20420980&lokasi=lokal>

Abstrak

The International Congress on Antiphospholipid Antibodies is held every three years to discuss the recent advances and future directions in Antiphospholipid Syndrome (APS). This volume collects the scientific highlights and new findings about APS that were generated from the most recent 13th congress, held in Galveston, Texas in 2010. Chapters were written by an internationally-distinguished group of scientists from the point-of-view of multiple specialty areas. Each chapter was written in a uniform and systematic basis to present the latest evidence-based research, including the basic science of APS, task force reports from the congress on controversial aspects of APS, and future directions of APS research.
