

We are the Martians : connecting cosmology with biology

Bignami, Giovanni F., author

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20421019&lokasi=lokal>

Abstrak

This compelling book shows how life derives from the big bang through the formation of matter and energy. The author explains how 40,000 tons of extraterrestrial matter raining down on Earth each year delivers the bricks of life from the universe.
