## Abstrak

[**ABSTRAK**]

Tesis ini membahas tentang bagaimana pengolahan atau pemrosesan informasi (dalam hal ini pesan-pesan kampanye) yang dilakukan oleh pemilih yang melakukan split-ticket voting, yaitu memilih kandidat dari partai yang berbeda pada pemilihan Legislatif dan pemilihan Presiden tahun 2014. Penelitian ini adalah penelitian kualitatif dengan analisis fenomenologis interpretatif. Hasil penelitian ini menunjukkan bahwa pemilih melakukan pemrosesan pesan kampanye yang sederhana. Pemilih tidak membanding-bandangkan dan memikirkan ideologi partai, kekuatan partai dan lembaga pemerintahan, serta kekuatan isu. Pemilih dalam penelitian ini masuk dalam kategori unintentional, yaitu pemilih yang tidak sengaja melakukan split-ticket voting dan tidak memiliki motivasi khusus atau kepentingan tertentu. Selanjutnya, teori-teori split-ticket voting perlu diuji kembali di Indonesia dalam konteks akademis dan metodologis. Sementara dalam konteks praksis, para kandidat maupun partai politik perlu memikirkan strategi khusus menghadapi pemilih unintentional di Indonesia.
