ABSTRAK
 Suku Dinas Kesehatan Kota merupakan unit kerja Dinas Kesehatan pada Kota Administrasi. Suku Dinas Kota dipimpin oleh seorang Kepala Suku Dinas yang secara teknis dan administrasi berkedudukan di bawah dan bertanggung jawab kepada Kepala Dinas, serta secara operasional berkedudukan di bawah dan bertanggung jawab kepada Walikota. Jakarta Timur memiliki 88 puskesmas yang terdiri dari 10 Puskesmas Kecamatan dan 78 Puskesmas Kelurahan. Puskesmas Kecamatan membawahi beberapa Puskesmas Kelurahan. Puskesmas Kecamatan yang terletak di wilayah Jakarta Timur yaitu Puskesmas Kecamatan Makasar, Matraman, Jatinegara, Cakung, Duren Sawit, Kramat Jati, Pulogadung, Pasar Rebo, Ciracas, dan Cipayung. Pengadaan obat di Puskesmas dilakukan oleh Kepala Apotek Puskesmas kepada Suku Dinas Kota Jakarta Timur dengan mengajukan formulir LPLPO (Laporan Pemakaian dan Lembar Permintaan Obat). Perencanaan kebutuhan Obat dan Bahan Medis Habis Pakai di Puskesmas mengacu pada Daftar Obat Esensial Nasional (DOEN) dan Formularium Nasional. Pelaporan Penggunaan Obat Rasional (POR) dilakukan setiap bulan dengan tujuan untuk melihat kerasionalan peresepan obat, terutama pada pasien ISPA non pneumonia, diare non spesifik, dan myalgia.ABSTRACTABSTRACT
 Tribe Health Department is working units in the city Health Department official rate city administration headed by a chief official who is technically and administration under and responsible to the head office as well as operationally under and responsible to the mayor. East Jakarta has 88 health centers consisting of 10 district health centers and 78 village health centers. District health centers in charge of several villages. District health center is located in East Jakarta which makassar district health centers, matraman, jatinegara, cakung, duren sawit, kramat jati, pulogadung, pasar rebo, ciracas, and cipayung. Procurement of drugs in health centers carried out by the head of Pharmacy Health Center to the east of Jakarta City official rate by submitting a form RSUGD (Report Sheet Usage and Demand for Drugs). Material requirements planning drugs and medical consumables in health centers refer to the national essential drugs list (NEDL) and national formulary. Reporting rational drug use (RDS) is done every month with the aim to see the rationality of prescribing drugs, especially in patients ISPA non pneumonia, non-specific diarrhea and myalgia.
