Process modeling style / By John Long

Deskripsi Lengkap: https://lib.ui.ac.id/detail?id=20427651&lokasi=lokal

----

Abstrak

Process modeling style focuses on other aspects of process modeling beyond notation that are very important to practitioners. Many people who model processes focus on the specific notation used to create their drawings. While that is important, there are many other aspects to modeling, such as naming, creating identifiers, descriptions, interfaces, patterns, and creating useful process documentation. Experience author John Long focuses on those non-notational aspects of modeling, which practitioners will find invaluable.
