

The microeconomics of complex economies : evolutionary, institutional, neoclassical, and complexity perspectives / Wolfram Elsner, Torsten Heinrich, Henning Schwardt.

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20427769&lokasi=lokal>

Abstrak

the microeconomics of complex economies uses game theory, modeling approaches, formal techniques, and computer simulations to teach useful, accessible approaches to real modern economies. It covers topics of information and innovation, including national and regional systems of innovation ; clustered and networked firms ; and open-source/open-innovation production and use. Its final chapter on policy perspectives and decisions confirms the value of the toolset.

The book includes an introduction to computer simulation and pedagogical supplements. Its formal, accessible treatment of complexity goes beyond the scopes of neoclassical and mainstream economics. The highly interdependent economy of the 21st century demands a reconsideration of economic theories.
