

Evaluating trainer effectiveness: measurement & evaluation

Conway, Mal, author

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20429173&lokasi=lokal>

Abstrak

Recruiting, selecting, training, and developing quality trainers and instructors is always a challenge. This issue presents a generic model for evaluating the effectiveness of trainers, including tips on how to select the best trainers for your project. It describes strategies for developing training skills such as certification, mentoring, and developing plans, and explains how to improve trainers credibility.
