ABSTRAK

Maskapai penerbangan berbiaya murah atau Low Cost Carriers (LCC) saat ini tengah menjadi primadona ditambah dengan penetrasi internet dan e-commerce yang terus mengalami perkembangan signifikan, konsumen digital Indonesia pun sangat menikmati belanja online terutama jika menyangkut tentang berpergian travelling. Penelitian ini dilakukan untuk menganalisis sekaligus membandingkan faktor-faktor apa saja yang memengaruhi intensi penggunaan Website Low Cost Carrier dalam pembelian tiket secara online dengan mengaplikasikan the unified theory of acceptance and use of technology (UTAUT 2) yang menggunakan variabel dasar seperti performance expectancy, effort expectancy, social influence, facilitating conditions, hedonic motivation, habit, consumers? innovativeness, trust (information quality, perceived security, perceived privacy), dan price value. Penelitian ini menggunakan dua studi kasus yakni Air Asia dan Lion Air Indonesia. Responden merupakan orang-orang yang pernah melakukan pembelian secara online melalui kedua website tersebut dalam kurun waktu 6 (enam) bulan terakhir. Metode pengolahan data menggunakan Structural Equation Modelling (SEM). Hasil dari penelitian menunjukkan bahwa kedua website sama-sama memiliki pengaruh yang signifikan pada variabel performance expectancy, trust (information quality dan perceived security) serta habit untuk website Air Asia dan price saving untuk website Lion Air.
