Abstrak

E-Procurement merupakan upaya untuk meningkatkan kinerja Sekretariat Militer Presiden melalui pemanfaatan teknologi informasi dan komunikasi dalam pemerintahan (e-Government), khususnya untuk mempercepat pengadaan barang pemerintah/jasa, sesuai dengan Instruksi Presiden Nomor 1 Tahun 2015 tentang percepatan Pengadaan Barang/Jasa Pemerintah. Namun, kecenderungan yang terjadi di Sekretariat Militer Presiden menunjukkan bahwa masih ada beberapa kendala dalam pelaksanaan proses e-Procurement yang dimanifestasikan oleh lambatnya proses penyerapan barang dan anggaran modal.

Penelitian ini menggunakan pendekatan metode pengumpulan data post-positivis melalui studi literatur, observasi dan wawancara mendalam, untuk mengetahui proses pelaksanaan e-Procurement, faktor-faktor yang mempengaruhi pelaksanaan e-Procurement, dan dampak pelaksanaan e-Procurement dalam mendukung percepatan penyerapan barang dan belanja modal di Militer Sekretariat Presiden.

Hasil penelitian menunjukkan bahwa tidak semua paket pekerjaan pengadaan/jasa di Sekretariat Militer Presiden dilakukan melalui e-procurement, sedangkan paket pekerjaan pengadaan barang/jasa yang dilakukan melalui e-Procurement menunjukkan efisiensi dalam hal waktu dan anggaran. Beberapa faktor seperti kurangnya sumber daya manusia dan infrastruktur teknologi informasi dan komunikasi (TIK) serta komitmen pemimpin berpengaruh pada pelaksanaan eprocurement.

.....

E-Procurement is an effort to improve the performance of the Military Secretariat of the President through the utilization of information and communication technology in government (e-Government), in particular to speed up government procurement / services, in accordance with Presidential Instruction No. 1 Year 2015 on the acceleration of Procurement of Government Goods/Services. However, the trends taking place in the Military Secretariat of the President indicates that there are still some obstacles in the implementation of e-Procurement process which is manifested by the slow process of absorption of goods and capital budgets.

This research use data collection methods postpositivist literature study, observation and in-depth interviews, to know the process of implementing e-Procurement, the factors that affect the implementation of e-Procurement, and the impact of the implementation of e-Procurement in supporting the acceleration of the absorption of goods and shopping at Military Secretariat of the President.

The results showed that not all goods procurement work packages/services in the Military Secretariat of the President is done through e-procurement, while the work packages of goods /services conducted through e-Procurement demonstrate the efficiency in terms of time and budget. Several factors such as lack of human resources and infrastructure of information and communication technology (ICT) as well as the commitment of influential leaders in the implementation of e-procurement.
