**ABSTRAK**

Penerapan Corporate Governance (CG) pada sektor perbankan di Indonesia, khususnya Bank Pembangunan Daerah (BPD) sebagai entitas Badan Usaha Milik Daerah (BUMD) memperlihatkan suatu karakteristik tertentu di mana CG diterapkan dengan merujuk pada pedoman yang berlaku bagi sektor perbankan secara umum di Indonesia. Mempertimbangkan keberadaan Bank DKI sebagai BPD, Bank DKI memiliki fungsi yang berbeda dengan bank umum lainnya terkait misi yang diemban sebagai Bank dengan kepemilikan saham mayoritas oleh Pemerintah Provinsi DKI Jakarta. Kondisi tersebut pada akhirnya mempengaruhi struktur CG di Bank DKI. Penelitian ini bertujuan untuk menganalisis struktur CG di Bank DKI meliputi elemen Boards (Dewan Komisaris dan Direksi), Komite Dewan Komisaris dan Pemegang Saham (Shareholders, Stakeholders and Holding Company). Analisis dilakukan terhadap dokumen dan hasil evaluasi CG di Bank DKI serta hasil wawancara dengan organ CG di Bank DKI. Secara umum ditemukan kondisi yang belum ideal dalam proses CG di Bank DKI sekalipun struktur CG di Bank DKI telah memenuhi ketentuan CG yang berlaku secara umum bagi sektor perbankan di Indonesia.

**ABSTRACT**

Corporate Governance (CG) implementation in Indonesian banking sector, particularly Regional Development Bank as Regional ? Owned Enterprise entity demonstrates a peculiar characteristic where CG has been exercised in compliance with set of regulations that are commonly prevailed for Indonesian banking sector. Considering existence of Bank DKI as Regional-Owned Enterprise, the Bank has distinctive function than other commercial banks related to its mission as Bank with majority shares ownership by DKI Jakarta Provincial Government. The condition affected CG structure at Bank DKI. The research is intended to analyze CG structure at Bank DKI comprising Boards (Board of Commissioners and Board of Directors), Committees under the Board of Commissioners, as well as Shareholders, Stakeholders and Holding Company. The analysis comprehended CG documents and assessment report at Bank DKI as well as result of interview with CG bodies at Bank DKI. Despite Bank DKI has complied with CG Regulation that is commonly prevailed on Indonesian banking sector, result of the research demonstrates problematic condition on Bank DKI?s CG process
