Tesis ini membahas mengenai konsep keamanan nasional (National Security) dalam kerangka liberalisasi perdagangan World Trade Organization yang diadopsi dalam Pasal XXI General Agreement On Tariffs And Trade dan Pasal XIV bis General Agreement On Trade Of Services, serta bagaimana konsep tersebut dapat mempengaruhi proses liberalisasi perdagangan yang bersifat hambatan terhadap liberalisasi perdagangan itu sendiri, dan bagaimana konsep tersebut menyebabkan pencapaian tujuan World Trade Organization yaitu kesejahteraan tidak akan tercapai sehingga aturan-aturan GATT dan GATS menjadi sia-sia dalam praktiknya
