

Essentials for evaluation: research & evaluation

Waagen, Alice K., author

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20435514&lokasi=lokal>

Abstrak

Evaluating the effectiveness of training is optional for many trainers, but what are the key elements in the process? This Infoline answers this question and more. You will learn about the advantages and disadvantages of various types of evaluation from the most basic smile sheets to organizational results. Included is a discussion on how to report results to management as well as keeping the process closely tied to business results.
