

Training and learning styles: training basics

Russell, Susan, author

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20435646&lokasi=lokal>

Abstrak

Some learners get it while others do not a fact of life for the professional trainer. This Infoline offers tips and tools to close the common learning gap. By exploring examples of typical training styles, along with their strengths and weaknesses, you will be able to choose appropriate training activities that get results. In addition, you will get detailed descriptions of educational and psychological assessment instruments that will help you jump start the process tailoring your training design to the learner.
