

Learning technologies: training technology

Sanders, Ethan S., author

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20435677&lokasi=lokal>

Abstrak

Organizations have been quick to adopt learning technologies to increase the efficiency and effectiveness of the learning function. This issue describes the advances of using learning technologies and lists development times and costs for each type. As such, this issue is a useful tool for making strategic decision about these technology-based learning tools. The issue presents 31 competencies that enable trainers to use learning technologies and presents learning technologies in the context for the familiar ADDIE model to speed application and understanding.
